Hello Supporters of AB 2705:

UPTE-CWA is the primary sponsor of **AB 2705** (Williams: CA Community Colleges Faculty bill) and CPFA is a strong supporter as well. This bill takes a step to clean up California's Education Code and more accurately describes the key role that contingent or part-time faculty play in our state's higher education system. These dedicated educators have been used and abused by the system for far too long and this bill helps to reverse this injustice.

We have gotten this bill through all committees and the full Assembly. Now we face a tough Senate floor vote. This floor vote will take place sometime in early August and should be the final step before being forwarded to the Governor.

Please help us help you with this bill by [signing this support letter](#). We will then deliver it to the appropriate Senators. Please be sure to enter your address so that we can get them to your Senator and they know that you are one of their constituents.

Thank you,

Rodney Orr
Legislative Director
